Company: Codingkey

Location: , , Pakistan

Category: other-general

Chief Information Security Officer -(CISO)We are currently seeking a seasoned Chief Information Security Officer (CISO) with extensive experience in information security, particularly within dynamic and technologically advanced environments. The ideal candidate will have a minimum of 10-15 years of experience in information security, with a proven track record in developing and managing comprehensive information security programs.

**Key Responsibilities:**

- Strategic Leadership:** Develop and implement a comprehensive information security strategy that aligns with organizational goals and addresses the evolving threat landscape.
- Policy Development and Governance:** Formulate, establish, and maintain information security policies and procedures to ensure compliance with legal, regulatory, and contractual obligations.
- Risk Management:** Identify, assess, and prioritize information security risks, and develop risk mitigation strategies to protect organizational assets and data.
- Incident Response and Recovery:** Lead the development and execution of incident response plans. Ensure prompt and effective action in the event of a security breach.
- Cybersecurity Operations:** Oversee the operation of cybersecurity tools and infrastructure, ensuring optimal performance and threat protection.
- Team Leadership and Development:** Build, lead, and mentor a high-performing information security team. Ensure ongoing training and professional development opportunities.
- Stakeholder Engagement:** Work collaboratively with stakeholders across the organization to integrate security practices into all aspects of the business. Promote a culture of security awareness.
- Budget Management:** Develop and manage the information security budget, ensuring the efficient allocation of resources.
- Vendor Management:** Oversee

relationships with external security vendors and partners, ensuring they meet organizational security standards. Continuous Improvement: Stay abreast of the latest security trends, threats, and technologies. Continuously evaluate and improve the information security program to address new challenges. Required Skills and Experience: Minimum 10-15 years of experience in information security, with substantial leadership experience. Proven ability in developing and executing successful information security strategies. Strong understanding of information security frameworks (e.g., ISO 27001, NIST, GDPR) and regulatory compliance. Excellent leadership and team management skills. Strong analytical, problem-solving, and decision-making capabilities. Exceptional communication and interpersonal skills. Relevant degree in information technology, cybersecurity, or related field. Advanced certifications (e.g., CISSP, CISM) are highly desirable. Role Description This is a full-time remote role for a Chief Information Security Officer. The Chief Information Security Officer will be responsible for managing and implementing information security policies and procedures, overseeing cybersecurity initiatives, ensuring business continuity, and maintaining application security. Qualifications Experience with Information Security Management and Cybersecurity Expertise in Information Security and Application Security Experience in developing and implementing business continuity plans Excellent communication and leadership skills Bachelor's or Master's degree in Computer Science, Information Technology, Cybersecurity, or related field Relevant certifications such as Certified Information Security Manager (CISM), Certified Information Systems Security Professional (CISSP), or Certified Ethical Hacker (CEH) Personal Attributes: Strategic and analytical thinker. Ability to lead under pressure and make informed decisions. High ethical standards and professional integrity. Excellent organizational and prioritization skills. The CISO role is vital for ensuring the integrity, confidentiality, and availability of the organization's information assets. The ideal candidate will be a visionary leader with a deep understanding of the cyber threat landscape and the ability to implement robust security measures in a constantly evolving environment.
