### Required skills & qualifications for a cloud DevOps engineer role

As a cloud DevOps engineer, you need a strong understanding of cloud computing concepts to design, implement, and manage cloud-based solutions. You don't necessarily need a degree to become a cloud DevOps engineer, as some employers will look more at your work experience. A degree in computer science or a related field can give you the technical knowledge and skills you need to succeed in this role. Many employers prefer candidates with at least a bachelor's degree. 3 years of proven experience in AWS & Azure

To be a cloud DevOps engineer, you'll need experience with the following technologies.

- Public clouds, such as AWS, Azure, or Google Cloud Platform.
- Automation technologies, such as Kubernetes or Jenkins.
- Configuration management tools, such as Puppet or Chef.
- Scripting languages, such as Python or Ruby.

In addition to these technical competencies, you'll need strong workplace skills. You'll need to

- Be a strong communicator with excellent written and verbal communication skills.
- Be able to work in a collaborative environment, as well as independently.
- Have the ability to work in a fast-paced environment and meet deadlines.

My Resume might be showing very little about me. Would

love to give a technical interview on AWS cloud.
