Consultant SAP SD

Responsibilities:

Lead SAP SD implementations and collaborate with cross-functional teams.

Manage the end-to-end Order to Cash (OTC) process, optimizing pricing and document flow.

Oversee customer master data for accuracy and consistency.

Configure and customize sales documents, enhancing document flow and copy controls.

Define output determination and manage document output processes.

Integrate SAP SD with inventory and logistics modules for efficient order fulfillment.

Configure and optimize complex pricing structures, discounts, and rebates.

Implement and optimize credit management processes to minimize risks.

Collaborate with stakeholders, providing expert advice on SAP SD functionalities.

Develop and execute test plans, ensuring the quality of SAP SD processes.

Conduct training sessions for end users and provide ongoing support.

Create and maintain comprehensive documentation of SAP SD configurations.

Identify opportunities for continuous improvement in SAP SD processes.

Implement best practices and recommend system enhancements.

Deliver high-quality results within specified timelines.

Qualifications:

Minimum 4 years of hands-on SAP SD experience.

Proven experience in at least one SAP SD implementation project.

In-depth knowledge of the Order to Cash (OTC) process.

Strong configuration skills in SAP SD, including pricing and output determination.

Integration experience with other SAP modules, especially inventory and logistics.

Bachelor's degree in a relevant field; SAP SD certification is a plus.

Strong analytical and problem-solving skills.

Excellent communication and interpersonal skills, ability to work collaboratively.
