

## CSR Project Engineer

[Apply Now](#)

Company: BARRICK

Location: Karachi

Category: other-general

Location Reko Diq Mine Site/Nok Kundi – Balochistan

**Qualification** Possession of a bachelor's degree in civil engineering or a closely related field, structural engineers will be preferred.

**Experience** Demonstrated prowess in project engineering, preferably with 7 to 10 years' experience in community-focused initiatives.

**Requirements** Robust knowledge of construction processes, technical specifications, and industry standards.

Proficiency in crafting comprehensive Bills of Quantities (BOQs) and adept use of project management tools.

Exceptional communication and interpersonal skills to facilitate effective engagement with diverse stakeholders. **Responsibilities** Lead and contribute to the meticulous planning and execution of renovation and construction projects within the community.

Collaborate seamlessly with cross-functional teams, ensuring project objectives align with overarching community development goals.

Craft comprehensive and accurate BOQs, drawing and designs for renovation and construction projects, ensuring precision in adherence to project specifications.

Collaborate proactively with procurement teams to facilitate seamless sourcing of materials and services as per BOQ requirements.

Exercise diligent oversight of construction and renovation activities, upholding uncompromising compliance with technical specifications and industry standards.

Conduct regular on-site visits to assess progress, troubleshoot technical challenges, and

maintain stringent quality control.

Actively engage with community members, local authorities, and relevant stakeholders to gather invaluable input, ensuring alignment with community needs.

Cultivate and maintain positive relationships with contractors, vendors, and project partners to enhance collaborative efficiency.#J-18808-Ljbfrr
