Company: Vartana, Inc.

Location: , , Pakistan

Category: other-general

Vartana is the revenue acceleration platform for top-tier enterprise technology companies. We empower sales and finance to accelerate the deal cycle without compromising cash flow through our flexible payment options and collaborative sales closing platform. Our platform is trusted by leading enterprise companies, including Motive, Domo, Samsara, and many others, as the platform of choice to make products affordable and easy to purchase for their customers. We have raised over \$40M to deliver on our vision and are backed by top-tier investors, including Activant Capital, Mayfield, and Audacious Ventures.

About Role:At Vartana, we're dedicated to leveraging data-driven insights to fuel our growth and drive meaningful impact. As a Data Engineer, you'll play a pivotal role in designing and maintaining our data infrastructure, ensuring the integrity and accessibility of our data for informed decision-making.

Responsibilities:Design, develop, and maintain scalable data pipelines and ETL processes. Collaborate with cross-functional teams to understand and address data needs. Ensure data quality, security, and optimal performance of our data systems. Evaluate and implement new tools and technologies to enhance our data capabilities.

Requirements:Bachelor's degree in Computer Science, Engineering, or related field. Strong experience in Data Engineering or similar roles. Proficiency in Python/Ruby/Golang and database technologies (SQL, NoSQL) Visualisation tools (Looker, Tableau, Metabase, PowerBI) Familiarity with AWS cloud platform and the associated big data frameworks (Spark, Redis, Bigquery/Redshift, Airflow, Glue, Snowflake, Databricks). Excellent problem-solving skills and a keen eye for detail.

Vartana is an equal opportunity employer and values diversity at our company. We do not discriminate based on race, religion, color, national origin, gender, sexual orientation, age,

marital status, veteran status, or disability status.
