

Data Scientist

[Apply Now](#)

Company: Snavhant

Location: Pakistan

Category: computer-and-mathematical

The Offer

Work within a company with a solid track record of success

Work alongside & learn from best in class talent

Excellent career development opportunities

The Job

Responsibilities:

Analyze large datasets to identify trends, patterns, and correlations.

Develop predictive models and algorithms to solve business problems.

Design and implement data-driven solutions to improve business processes and decision-making.

Collaborate with cross-functional teams to understand business requirements and provide analytical support.

Communicate findings and recommendations to stakeholders through visualizations, reports, and presentations.

Stay updated with the latest trends and advancements in data science and machine learning techniques.

Continuously evaluate and enhance data quality and integrity.

The Profile

Qualifications:

Bachelor's or Master's degree in Computer Science, Statistics, Mathematics, or a related field.

Proven experience in data analysis, statistical modeling, and machine learning techniques.

Proficiency in programming languages such as Python, R, or SQL.

Strong problem-solving skills and the ability to translate business requirements into data-driven solutions.

Excellent communication skills with the ability to convey complex technical concepts to non-technical stakeholders.

Experience with data visualization tools (e.g., Tableau, matplotlib, seaborn) is a plus.

Familiarity with big data technologies (e.g., Hadoop, Spark) and cloud platforms (e.g., AWS, Azure) is a plus.

A collaborative mindset with the ability to work effectively in a team environment.

The Employer

Our client is a personality-based social/dating app that allows you to deeply understand anyone and connect with people who intuitively understand you.
