Company: Veon Group

Location: Islamabad

Category: business-and-financial-operations

Jazz is looking for a self-driven individual who wants to be part of a fast-paced team with the ambition to learn and grow. Pricing Expert is someone who has the ability to develop product ideas and convert them into tangible results to grow and sustain the business. The person is expected to keep a pulse check on Business KPIs through regular monitoring and raise red flags in a timely manner whenever required. The individual should be capable of providing the complete story behind the company performance combining insights from analytics, research and CEX based findings through behavioral assessment. The individual should have sound business analytical, product development, project management and relationship management skills; these skills are the cornerstone for this job role. The role reports directly to the Head of Pricing in a team of 5 members (including Department Head). What Expert Pricing does? Key Roles Recommend ways to develop pricing strategy of all B2C and B2B portfolio ensuring achievement of business objectives Recommend & develop new strategies on how to retain and bring new customers Using analytical skills design action plan for achievement of sales targets, reduce churn, improve subscriber retention and dormancy trends Review the developed business cases for all new launches and change in existing products/projects Monitor competitors pricing for similar products/services and recommend corrective action Work with various segments to conduct BTL activities to increase usage and customer engagement Have the ability to individually steer or lead projects towards achieving the end goal Identify growth opportunities and create comprehensive plans for achievement of growth objectives Monitor revenue, subscriber and traffic trends and coordinate with the relevant segments to propose action plan in case of

gap identification and raise early warnings for performance management. Review and enhance the defined pricing dynamics for B2C and B2B Voice, SMS, Data, VAS and digital products taking into account internal costs, competition, regulation, and market constraints. Determine feasibility of new products and determine optimal pricing. Review post product/price change impact for all pricing initiatives and propose optimal way forward. Manage network load through product changes, ensuring cellular traffic to remain within network capacity constraints. Foresee innovative opportunities and projects to attract new customers and gain competitive edge. To closely monitor competitor performance and maintain/increase revenue and subscriber market shares. Creating a 360 degree view on business problems incorporating both qualitative and quantitative angles in order to propose solutions. Prepare periodic revenue outlook in comparison with relevant benchmarks. Ability to develop and deliver end to end Business Model for Growth Forecasting. To co-ordinate with the regulator to secure approvals for effective launch of new/existing product changes.

Jazz is an equal opportunity employer. We celebrate, support, and thrive on diversity and are committed to creating an inclusive environment for all employees.
