Company Profile

EpicMetry is a dynamic venture studio based in the vibrant city of Dubai. Our passion lies in harnessing cutting-edge technology to drive innovation and empower businesses across diverse industries. With a focus on excellence and a commitment to delivering exceptional solutions, we serve as a trusted partner for companies aiming to thrive in today's digital landscape. From web and mobile app development to product prototyping and data processing automation, EpicMetry offers a comprehensive suite of services tailored to meet the evolving needs of businesses worldwide. Join us as we shape the future of technology and create impactful solutions that drive success for our clients.

Position Overview

At EpicMetry, we are seeking a skilled Frontend Angular Developer to join our team in Karachi. As an Angular Developer, you will play a crucial role in designing and implementing user interfaces for our cutting-edge web applications. If you have a passion for Angular development and are ready to take on exciting challenges, we want to hear from you.

Develop high-quality, maintainable, and scalable front-end applications using Angular.

Collaborate with UX/UI designers to implement design into functional and dynamic web applications.

Integrate with RESTful APIs and other back-end services to fetch and display data.

Ensure application performance, quality, and responsiveness across devices and browsers.

Participate in code reviews, adhere to best practices, and contribute to the continuous improvement of our development processes.

Work closely with the project team to understand requirements and deliver features that align with user needs and business objectives.

Stay updated with the latest developments in web technologies and Angular frameworks to incorporate new features and functionalities.

Qualifications :

Bachelor's degree in Computer Science, Information Technology, or a related field.

Proven experience as an Angular Developer, with a strong portfolio of projects demonstrating expertise in Angular 2+ and front-end development.

Proficiency in modern front-end technologies (HTML5, CSS3, JavaScript/TypeScript) and experience with responsive web design.

Familiarity with RESTful services and asynchronous request handling.

Experience with version control systems (e.g., Git) and front-end build tools (e.g., Angular CLI, Webpack).

Knowledge of UI/UX design principles and user-centered design practices.

Excellent problem-solving skills, attention to detail, and the ability to work in a collaborative team environment.

Strong communication skills and the ability to manage time effectively to meet project deadlines.#J-18808-Ljbffr
