

## Full Stack Developer

[Apply Now](#)

Company: mr.alfred

Location: Pakistan

Category: computer-and-mathematical

Mr.Alfred helps property managers optimise their time and increase their revenue through our Property Management Software (PMS). We ensure the automation of administrative and property management processes, alongside a specialized revenue management team. This end-to-end solution allows property managers to focus on what is most important to their business and provides strategies according to their needs. Increase your revenue, decrease costs and time spent, and make the best data-driven results with us.

### The Role

#### You will be responsible for :

Writing well-designed, testable and efficient code.

Gathering and evaluating user feedback.

Working as a part of a dynamic team to deliver winning products.

Providing code documentation and other inputs to technical documents.

Supporting continuous improvement by investigating alternatives and new technologies and presenting these for architectural review.

Troubleshooting and debugging to optimise performance.

### Ideal Profile

You possess a Degree/Diploma in Computer Science, Engineering or related field.

You have at least 3 years experience, ideally within a Full Stack Developer role.

You are highly goal driven and work well in fast paced environments

You are a strong team player who can manage multiple stakeholders

You are adaptable and thrive in changing environments

### What's on Offer?

Excellent career development opportunities

Work alongside & learn from best in class talent

Great work environment
