GIS And R Programmer - REMOTE Jobs in Faisalabad, Islamabad, Karachi, Lahore, Multan, Peshawar, Quetta, Rawalpindi, Pakistan

Are you passionate about leveraging GIS and R programming to unravel the intricacies of land use dynamics? Join our dynamic team and make a significant impact on environmental research and conservation efforts! We are seeking a talented individual proficient in GIS and R programming to lead our land use mapping and analysis initiatives. As a key member of our team, you will utilize your expertise to develop innovative solutions and insights into land use patterns and their environmental implications.

**Key Responsibilities:** Utilize GIS and R programming to conduct advanced land use mapping and analysis. Apply landscapemetrics or similar packages to extract meaningful landscape metrics. Develop and implement models to assess carbon dynamics in the landscape. Collaborate with interdisciplinary teams to integrate spatial analysis into broader research projects. Present findings through clear and compelling visualizations and reports.

**Qualifications:** Proficiency in GIS software (e.g., ArcGIS, QGIS) and R programming. Experience with landscapemetrics or comparable packages for spatial analysis. Strong background in land use mapping and analysis techniques. Ability to develop and implement carbon modeling methodologies. Excellent communication skills with the ability to translate technical concepts for non-technical stakeholders.

**Benefits:** Competitive

salary commensurate with experience. Opportunities for professional development and career advancement. Collaborative and supportive work environment. Chance to contribute to meaningful environmental research and conservation efforts. If you are a motivated individual with a passion for GIS, R programming, and environmental science, we want to hear from you!
