Head, Habitat Resilience Program (Pakistan) May 9, 2023 | Canada The Aga Khan Agency for Habitat is looking for a Head of the Habitat Resilience Program , to join its team in Pakistan. As part of this role, the candidate will be responsible for leading and managing the development, implementation, and evaluation of programs and projects that aim to build the resilience of habitats and ecosystems in various environmental challenges, such as climate change, habitat degradation, and biodiversity loss. The candidate will also develop an interdisciplinary habitat planning model and cross-cutting program initiatives for remote mountainous regions as well as urban centers, with the intent of improving the overall quality of life. The ideal candidate will possess an advanced university degree or equivalent professional qualification in habitat planning, town/urban/ municipal planning, architecture, environmental engineering, or any other social or earth sciences field, along with at least 12 years of relevant work experience. To learn more or submit an application, please see the job posting . The deadline to apply is Monday, May 22.
