[Apply Now](#)

Company: Phoenixsafco

Location: , , Pakistan

Category: other-general

We are currently seeking an experienced and qualified HSE Manager to oversee Health, Safety and Environmental (HSE) aspects of our multinational client in Karachi. The HSE Manager will be responsible for developing and implementing HSE policies, procedures and programs to ensure the safety and well-being of all project personnel and compliance with applicable regulations and standards. The successful candidate will work closely with project management and site teams to identify and mitigate potential HSE hazards and risks.

Responsibilities: Develop and implement HSE policies, procedures, and programs for the project
Conduct HSE training and awareness sessions for all project personnel
Ensure compliance with all relevant HSE regulations and standards
Identify and assess potential HSE hazards and risks and implement measures to mitigate them
Conduct regular HSE audits and inspections to identify and address any deficiencies
Investigate and report on all incidents, accidents and near-misses
Ensure proper documentation of all HSE activities and incidents

Requirements: Bachelor's degree in Environmental Science, Occupational Health and Safety, or a related field
NEBOSH IGC or ASP/CSP is a must, ISO 45001:2018, ISO 14001:2015, Certified First Aid & CPR
Minimum 10 years of experience with 6 year of experience in the electrical grid or power house experience.
Knowledge of local HSE regulations and standards
Excellent communication and interpersonal skills
Strong leadership and team management skills
Ability to work independently and in a team environment
Proficient in MS Office and HSE-related software
Training: OSHA Standard Training, Risk Management, Electrical Safety, Rigging and Lifting, Scaffolding and Fire Safety Management
