Company: Neolocus

Location: Pakistan

Category: arts-design-entertainment-sports-and-media

Neolocus is an AI-powered interior designer and marketplace that helps people design and furnish their space efficiently. Neolocus works with Real estate developers and home decor suppliers to build a one-stop interior design and e-commerce platform for homeowners. Follow us on our mission to design dream homes with AI.

The Role

As an AI Image Editing Junior at Neolocus, you will play a vital role in transforming and enhancing interior design visuals using cutting-edge AI tools, Adobe Creative Suite, and Figma. You will work closely with our design team to refine and elevate images, ensuring they align with our innovative vision and meet our high-quality standards.

Key Responsibilities :

Use AI tools to enhance and edit interior design images.

Work with Adobe Creative suite and Figma to implement design modifications.

Creates a portfolio of visual assets.

Stay updated with the latest AI image editing technologies and trends.

Ideal Profile

Required

Experience with Adobe Creative Suite and other image editing software (e.g. Figma).

Familiarity with AI image generation and enhancement tools.

Strong visual design skills.

Ability to work collaboratively in a team environment.

Nice-to-Have

Adobe Creative Suite Experience: Proficiency in Adobe Photoshop for advanced image manipulation and creative design solutions.

Interior Decoration Experience: Knowledge or experience in interior decoration or rendering, enabling a deeper understanding of design principles, trends, and client needs.

Minimal Coding Skills: Basic understanding of Python or any scripting language to automate workflows and utilize internal AI models.

What's on Offer?

A chance to accelerate your career

Flexible working options

Great work culture

Project management skills

Hands on experience with AI-based image creating and enhancement tools

Access to mentors
