

Information Security - Global DLP Analyst

[Apply Now](#)

Company: FINCA International

Location: Pakistan

Category: computer-and-mathematical

Role Purpose

The Global DLP Analyst will be primarily responsible for the daily data security event monitoring and/or maintenance of the enterprise Data Loss Prevention (DLP) solution. The main duties of the person in this role will include proper care and administration of the Data Loss Prevention (DLP) environment and monitoring and responding to the generated alerts, as well as manually reported data security alerts and notifications.

This position is part of Global Information Security and Resilience Team

The Global DLP Analyst will play a key role in maintaining and continuously improving FINCA's data security and protection control, monitoring and incident response framework.

Accountabilities

Administer DLP solution with a focus on configuring policies, alerts and reporting

Monitor DLP solution and respond to alerts, incidents and data breaches generated from the DLP and other technologies related to data leakage/data breach protection

Provide periodic analysis, reports and develop recommendations for DLP framework improvements and take part in its further implementation.

Play a key role in the incident response process for data loss/data breaches

Develop DLP Procedures and instructions, as relevant

Ensure conformance of DLP setup with applicable security and data privacy policies and regulations

Work with DLP technology vendors

Other relevant tasks as assigned

Job Requirements

Qualifications

Bachelor's or Master's Degree in Information Security, Risk Management or a related field.

Professional certifications such as the CISSP, CIPP would be nice to have.

Experience

3-5 years of experience in one or more of the following:

Information Security and Protection concepts related to Governance, Risk & Compliance

Data Loss Event and Incident Handling and Response

Configuring DLP Policies and Rules

Knowledge and Skills

Profound knowledge of Data Loss Prevention and data breach concepts

Knowledge of data privacy and protection regulations

Administration of the DLP tools which includes configuring DLP policies, alerts and reports

Proven effective verbal and written communication skills

Ability to independently research and solve issues

Demonstrated integrity in a professional environment

Excellent teaming skills

Good social, communication and technical writing skills

Ability to work in and adapt to a changing environment

Ability to work in a virtual team environment

Strong skills in analysis and problem solving.

Language Skills

Fluency in English

Other FIF Working Languages is a plus

Travel requirements

Availability to travel up to 10% of the time

The position will be based in Lahore, Pakistan.
