

Mechanical Engineer (Fire Sprinkler)

[Apply Now](#)

Company: Remote VA PH

Location: Islamabad

Category: architecture-and-engineering

Job Title: Fire Sprinkler Designer

Location: Remote

Job Description:

We are expanding our team and seeking a skilled Sprinkler Designer to join us remotely. The ideal candidate will have experience in creating SP (Sprinkler Plan) drawings and possess advanced knowledge of sprinkler systems, with a preference for familiarity with NYC codes and experience working on US projects.

Responsibilities:

Utilize CAD Revit software to design and develop SP drawings for sprinkler systems.

Ensure designs adhere to relevant codes and regulations, with a focus on NYC standards where applicable.

Collaborate with project stakeholders, including engineers and architects, to integrate sprinkler systems effectively into building designs.

Conduct remote site assessments and gather necessary information for design projects.

Review project specifications to ensure accuracy and compliance with client requirements.

Provide technical support and guidance to project teams throughout the design process.

Stay updated on industry trends, codes, and best practices related to sprinkler system design.

Requirements:

Previous experience as a Sprinkler Designer, with proficiency in CAD Revit software

Must have experience with US Projects in the past

Advanced knowledge of sprinkler system design principles and practices.

Familiarity with NYC codes and regulations is advantageous.

Strong attention to detail and ability to produce accurate drawings.

Excellent communication and collaboration skills, particularly in a remote work setting.

Ability to work independently and manage time effectively.

Commitment to ongoing learning and staying informed about advancements in sprinkler system technology and design practices.

This remote position offers an exciting opportunity to contribute to a variety of projects while working from the comfort of your own location. If you meet the qualifications and are passionate about sprinkler system design, we encourage you to apply.
