Company: Nisum Technologies, Inc

Location: Hyderabad City Taluka

Category: other-general

Nisum is a leading global digital commerce firm headquartered in California, with services spanning digital strategy and transformation, insights and analytics, blockchain, business agility, and custom software development. Founded in 2000 with the customer-centric motto “Building Success Together,” Nisum has grown to over 1,800 professionals across the United States, Chile, Colombia, India, Pakistan and Canada. A preferred advisor to leading Fortune 500 brands, Nisum enables clients to achieve direct business growth by building the advanced technology they need to reach end customers in today’s world, with immersive and seamless experiences across digital and physical channels.

What You’ll Do

Drive innovation and design solutions for consumer-facing iOS mobile applications

Provide technical leadership in the end-to-end design, development, and testing of solutions

Work with technical leads, managers, and Product stakeholders to define and manage the technical roadmap

Prepare and present potential technical solutions and advise the business on approach and tradeoffs

Work with developers, business analysts, and subject matter experts to understand the complex technological system in order to produce integrated end-to-end solution options

Provide high-level effort estimates in the absence of detailed requirements

Communicate solution approaches to architects, project teams, and other stakeholders

Keep up to date on cutting-edge technologies and effectively incorporate that knowledge into our platform roadmap, design, and implementation
