**JOB - NATIVE MOBILE APP DEVELOPER (Android and IOS)** SRECERTIFY, a leading software house is looking for NATIVE MOBILE APP DEVELOPER (Android and IOS) having at least 2 years of professional experience. It's a full-time job opportunity, candidate should be able to join us on a short notice. Responsibilities: As a native mobile application developer, your primary role is to design, develop, and maintain mobile applications for various platforms such as iOS and Android. Your creative skills and technical expertise will be crucial in creating user-friendly and visually appealing applications that meet the needs and requirements of our client. Here are some of the key responsibilities you can expect: Collaborating with cross-functional teams to gather requirements and design application interfaces that enhance user experience. Developing high-quality, efficient, and scalable code using programming languages such as Swift (for iOS) or Kotlin/Java (for Android). Conducting thorough testing and debugging to ensure the application's functionality and performance. Staying up-to-date with

the latest industry trends, technologies, and best practices to continuously improve the application's features and performance. Optimizing the application's performance for speed, scalability, and efficiency. Working closely with UI/UX designers to ensure a seamless integration of design elements into the application. Besides technical skills, being a native mobile application developer also requires excellent problem-solving abilities, attention to detail, and effective communication skills to collaborate with team members and stakeholders.
