Phlebotomist, Paediatrics and Child Health (Sinovac Study)Entity Medical College

LocationIntroduction Aga Khan University, chartered in 1983 as Pakistan's first private international university, is committed to the provision of education, research, and health care of international standard relevant to Pakistan and the region. The affiliated Aga Khan University Hospital provides state-of-the art clinical facilities and well-equipped diagnostic services. The University currently has teaching sites in Pakistan, East Africa, the United Kingdom, and Afghanistan, and is a major component of Aga Khan Development Network. The Outreach and Research Programme of the Department of Paediatrics and Child Health has ten community-based field sites across Pakistan (including four in Karachi) and focuses on research for betterment of women and child health. The Department has a Nutritional Research Laboratory as well as an Infectious Disease Research Laboratory that cater to the needs of its research projects. It has well-acclaimed work to its credit both at the national and international level. The Aga Khan University invites applications for the grant-funded contractual position of Phlebotomist in the Department of Paediatrics and Child Health.
