PowerApps – Architect

Apply Now

Company: veraqor

Location: , , Pakistan

Category: other-general

Responsibilities:

Architect, design, and implement PowerApps solutions that meet business requirements and align with best practices.

Collaborate with stakeholders, including business analysts and end-users, to gather and understand requirements for custom applications.

Provide expertise in leveraging Power Platform components such as PowerApps, Power Automate (Flow), and Power BI.

Develop data models and integrate PowerApps with various data sources, including SharePoint, SQL Server, and external APIs.

Design and implement security models to ensure data integrity and compliance with organizational policies.

Lead and mentor development teams in creating efficient, reusable, and scalable PowerApps solutions.

Stay updated on the latest features and updates in the Power Platform ecosystem and recommend their adoption as appropriate.

Collaborate with IT teams to integrate PowerApps solutions into existing enterprise systems.

Perform code reviews and ensure adherence to coding standards and best practices.

Requirements:

Minimum 5 years of experience in designing and developing solutions using Microsoft Power Platform, with a focus on PowerApps.

Bachelor's degree in Computer Science or a related field.

Strong proficiency in PowerApps, Power Automate, and Power BI.

Experience with data modeling, creating canvas and model-driven apps, and integrating PowerApps with various data sources.

In-depth knowledge of Power Platform connectors, functions, and expressions.

Ability to design and implement secure and compliant PowerApps solutions.

Strong problem-solving and analytical skills.

Excellent communication and collaboration skills.

Preferred Skills:

Microsoft Power Platform certifications.

Experience with PowerApps Portals and Common Data Service (CDS).

Knowledge of PowerApps Component Framework (PCF).

Familiarity with Azure services and integrations.

Experience with other low-code or no-code platforms.
