

Project Manager

[Apply Now](#)

Company: Inspurate

Location: Karachi Division

Category: other-general

Inspurate was founded in 2008 as a software development and IT outsourcing company. We specialise in web development, e-commerce, mobile applications, graphic design, UI/UX Design, SEO and Social Media services.

We are looking for a Software Project Manager who is good with team and client management and has a technical background in software development with an eye for the creative.

If you are good with team management and have a passion for software and user interface design this is the best place to get exposed to cutting edge new technology.

The position reports directly to the C.E.O. and Founder of the company. Responsibilities

Fluent in English and Urdu

Prior experience managing software and design teams

Must be able to multitask and good at time management.
