

QA & Security Testing Specialist

[Apply Now](#)

Company: VentureDive

Location: , , Pakistan

Category: other-general

Job Brief:We are seeking a highly skilled and experienced Quality Assurance (QA) Specialist with expertise in penetration testing to join our team. The ideal candidate will be responsible for ensuring the security and functionality of our software applications through rigorous testing methods, including but not limited to penetration testing, security assessments, and vulnerability scanning. This role requires a deep understanding of software vulnerabilities, cyber threats, and the latest testing tools and methodologies to identify and mitigate risks before deployment.

VentureDive Overview:Founded in 2012 by veteran technology entrepreneurs from MIT and Stanford, VentureDive is the fastest growing technology company in the region that develops and invests in products and solutions that simplify and improve the lives of people world-wide. We aspire to create a technology organization and an entrepreneurial ecosystem in the region that is recognized as second to none in the world.

Key Responsibilities:Develop and implement comprehensive penetration testing plans to identify vulnerabilities in software applications. Conduct security assessments, vulnerability analysis, and risk assessments on new and existing applications. Collaborate with development teams to understand system architecture and provide security insights during the software development lifecycle (SDLC). Create detailed reports of findings and recommendations for improving security and compliance. Stay up-to-date with the latest security threats, vulnerabilities, and penetration testing tools and methodologies. Participate in the creation and execution of automated testing scripts and tools. Assist in developing best practices and QA processes to ensure the highest levels of security and quality. Work with cross-functional teams to ensure that security is considered and integrated into all phases of

the software development process. Qualification Requirements: Bachelor's degree in Computer Science, Information Security, or related field. 4+ years of experience in QA, with a strong focus on security testing or penetration testing. Strong knowledge of penetration testing tools (e.g., Metasploit, Burp Suite, OWASP ZAP) and methodologies. Familiarity with security frameworks (e.g., OWASP, NIST) and compliance requirements. Experience with automated testing tools and scripting languages (e.g., Python, Bash). Excellent problem-solving skills and attention to detail. Strong communication and collaboration skills to work effectively with development teams and stakeholders. Certifications in security and penetration testing (e.g., OSCP, CEH) are highly desirable. Additional Requirements: Ability to work in a fast-paced and dynamic environment. Willingness to continuously learn and adapt to new technologies and testing techniques. In order to thrive at VentureDive, you...are intellectually smart and curious...have the passion for and take pride in your work...deeply believe in VentureDive's mission, vision, and values...have a no-frills attitude...are a collaborative team player...are ethical and honest Are you ready to put your ideas into products and solutions that will be used by millions? You will find VentureDive to be a quick pace, high standards, fun and a rewarding place to work at. Not only will your work reach millions of users world-wide, you will also be rewarded with competitive salaries and benefits. If you think you have what it takes to be a VenDian, come join us ... we're having a ball!
