

## Senior Android Developer

[Apply Now](#)

Company: Smart Global Concepts

Location: Karachi

Category: other-general

As an Android Mobile Developer at SGC you'll have an opportunity to work on innovative mobile projects. The team you would work with is small and agile, with talented people, who are proud of what they have built, yet eager to keep improving it for our customers. The team has released three mobile apps and all of them have received very positive reviews. The ideal candidate is a self-motivated innovative thinker who cares for our customers' happiness, the quality of the app and the service, as well as the quality of the code. You will be involved in a discussion on what our customers really want to achieve. You will work with a UX/UI designer to achieve their goals in an iterative way. You will work with back-end developers to design/improve remote APIs to make the innovative design happen. You will often read users' reviews to gain better perspective for improvement. Open source contributions

**Job Specification**

- 2+ years' experience building Android applications that are available in the App Store
- Strong understanding of MVC pattern, and other object oriented patterns/concepts
- Demonstrated skills in writing high-quality, readable, well-architected and efficient code
- Experience with version control (we use git)
- Familiarity with Agile development methodologies (we are half-Agile, half-lean)
- Experience with remote API - mobile client interactions in a UI driven software development, and ability to design and optimize them

Information Technology and Services - Karachi, Pakistan
