Senior ETL/BI (Data) Engineer

Apply Now

Company: Travel Innovation Group

Location: Lahore

Category: other-general

Shift pattern   Flexible, to be discussed with your manager About us and the department this role sits in:As a fast-growing SaaS company, Calrom has a proven record of delivering innovative software for international airlines. We're also part of the Travel Innovation Group, made up of Lime, Calrom & Aviate who all provide unique services to the travel trade.This role sits within our team of developers. We're a highly passionate bunch who bring the Calrom's innovations to reality. Our team is always busy with exciting projects, from creating brand new products to continually improving our existing travel systems.The role:You will work closely with our Pakistan Regional Directors, Systems Architects, and Team Leads (both in Lahore and the UK) analyzing, designing, and building new systems and enhancements to existing systems. You should possess a desire to learn and work with unique, highly complex, online transactional systems, not run-of-the-mill database backed CRUD systems. Primarily you will be working on Microsoft technologies stack.As an experienced engineer, we would expect you to contribute to our continual process of improving our systems, processes, and technology stack. Overall, we look for people who have an inquisitive mind, are always learning, and to whom development is a passion, who are not scared to look under the covers of a framework to figure out how things work, and ultimately why it may not be working as expected. You will work a group of highly passionate technology people who want to develop the best systems in their chosen business area. As a business we love to see our people grow and develop with room for both career and skills development across the organisation.The successful candidate will have:Minimum 4 years of relevant work experience in a similar job role, preferably in a fast-paced, data driven environment,

delivering value quickly and iterativelyWork closely with Heads, Architects, Business Intelligence, Data Science, Developers, and IT Delivery Teams to design, develop and maintain highly scalable data solutions and pipelinesDemonstrable experience in developing solutions that support analysis and business processes in commercial environmentsHands-on experience in installing/managing SSIS and SSRS/ PowerBI (Online/On-Premises)Experience in data modelling, ETL/ELT processes, and data warehousingAdvanced working SQL knowledge and experience working with relational databases, query authoring (TSQL) and query/performance tuningGood knowledge of BI dashboarding and self-service tools, especially PowerBI and SSRS Report ServerExperience of DevOps culture would be highly advantageous – Repo, Release pipelines, auditingExperience performing root cause analysis on internal and external data and processes to answer specific business questions and identify opportunities for improvement.Implementing and following best practices in Azure CICD and Git in a data environment.Good knowledge of Azure Data Lake(ADL) (incl. Blob Storage, Delta) Azure Data Factory (ADF) and Azure Databricks is desirable onlyKnowledge of Microsoft Dynamics CRM is a plusA team player can communicate effectively and comfortable working within a multi-cultural and multi-functional team, both locally and remote, understanding the perspectives of each partner.Excellent problem-solving and analytical skills with attention to details and are renowned for having high standards in your work.Exciting benefits we offer:Two annual bonusesCompany provided lunch every dayMedical insurance for self & dependents (OPD/IPD)Leave bank and encashment policyEOBICompany-paid sports activitiesCompany-paid certificationsCareer progression with personal development plansCompany celebration dinnersCompany sponsored annual tripOnsite secured car park for cars and bikesMonthly employee birthday celebrationWhere we are:In Pakistan, our state of art office is in the newly built Tricon business center situated in the heart of Gulberg. The hi-tech building features a full height glass window, which overlooks Gymkhana Golf Club and Main Gulberg, and is surrounded by banks, cafes, restaurants, shopping malls, hospitals and health and fitness clubs.To apply, email us with your CV or click apply now.
