

## Senior iOS Developer (Lahore)

[Apply Now](#)

Company: Digicon Valley

Location: Lahore

Category: other-general

We are looking for an iOS developer responsible for developing and maintaining applications aimed at a range of iOS devices, including mobile phones and tablet computers. Your primary focus will be the development of iOS applications and their integration with back-end services. You will be working alongside other engineers and developers working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and the creation of quality products are essential.

### Responsibilities

- Design and build applications for the iOS platform
- Ensure the performance, quality, and responsiveness of applications
- Collaborate with a team to define, design, and ship new features
- Help maintain code quality, organization, and automatization
- Identifying potential problems and resolving application bottlenecks.
- Fixing application bugs before release.
- Publishing application on App Store.
- Designing and implementing application updates.

### Qualification

- 1+ years of experience
- Have Experience to deploy app on apple store
- Bachelor's degree in Computer Science or Software Engineering.
- Proficient with Swift, Objective-C, and Cocoa Touch
- Experience with iOS frameworks such as Core Data, Core Animation, etc.

- Experience with offline storage, threading, and performance tuning
- Familiarity with RESTful APIs to connect iOS applications to back-end services
- Knowledge of other web technologies and UI/UX standards
- Understanding of Apple’s design principles and interface guidelines
- Knowledge of low-level C-based libraries is preferred
- Experience with performance and memory tuning with tools such as Instruments and Shark, depending on project needs
- Familiarity with cloud message APIs and push notifications
- Knack for benchmarking and optimization
- Proficient understanding of code versioning tools such as Git, Mercurial or SVN
- Familiarity with continuous integration#J-18808-Ljbffr
