Senior Php Developer Immediate Start

Seo Work, PakistanFantastic opportunity has arisen within a tiny successful web design consultancy based in G 11 Islamabad. We have brand new openings for 4 experienced PHP developers to join our established technical team to assist in the design and development of new and exciting state of the art websites for a large number of clients ranging from start up organizations right through to blue chip companies throughout Europe and America. You will be liaising with clients to discuss various designs and once his has been agreed you will then transform your ideas into up and running websites. You will build ongoing relationships with your clients and will continue to monitor and update the sites as and when required. You will also be involved in the production and upkeep of client websites, therefore a good understanding of web standards and accessibility is an absolute must.

Job SpecificationThe successful candidate will have a 2.1 or above in Computer Science or related discipline, proven professional experience as a PHP developer and an updated portfolio to highlight your best work. The following skills are also required for this position, CSS, XHTML JavaScript, AJAX and PHP5. If selected you will be joining a dynamic and ambitious market leader in their industry who are in the middle of a very exciting growth phase therefore fantastic career progression opportunities will be on offer for those willing to prove their ability.You will be working with some of the most talented people in the industry and will get the chance to prove yourself as a credible Web Developer.
