Senior PHP Symfony Developer to International media Service

Clipsource is an international digital media service from Stockholm in Sweden. The service is used by the largest and best TV and media companies in the industry.

We are now starting our business in Pakistan and look for talented developers to join our team.

We are a small and entrepreneurial team of developers working with modern tools and all services run on Amazon Web Services. You will be an important part of the team and contribute with your skills and experience.

The service is based on the LAMP stack and the PHP framework Symfony - so this will be your core experience. The roadmap will take us into microservices and graph based data structures.

Our modern and newly decorated office is situated in DHA Phase 5, Lahore.

You will be a key player in the development team working on feature development, participating in sprint planning, demo and review meetings apart from contributing with your development skills.
