

Senior Software Engineer I - Android

[Apply Now](#)

Company: Careem Networks FZ LLC

Location: , , Pakistan

Category: other-general

What you'll do

Design and build advanced, scalable applications written in Kotlin, Java and Kotlin

Multiplatform.

Work with the product and design teams to understand end-user requirements and use cases and translate them into pragmatic and effective technical solutions.

Integrate with our backend services to make sure we are delivering a great mobile user experience that is super-fast for end users.

Own end-to-end product modules and features from requirements to going live.

Design and review code, troubleshoot and act as a consultant to your peers on technical matters.

Gather requirements by interacting directly with the end-users and advocate delightful user experiences.

Continuously discover, evaluate, and implement new technologies to maximize development efficiency.

Unit-test code for robustness, including edge cases, usability, and general reliability.

Participate in team agile and engineering practices and lead their continuous evolution.

What you'll need

5+ years of Android application development with extensive use of Kotlin Multi Platform and

well-known DI frameworks.

Experience building well architected applications that follow well established design patterns independently and without supervision.

Good understanding of the full mobile development life cycle. Working knowledge of the general mobile landscape, architectures, trends, and emerging technologies.

Strong understanding of interactive application development paradigm under Android, memory management, file I/O, network programming, concurrency and multithreading and publishing Android apps in the Play Store.

Experience working with remote teams in an Agile/Scrum environment to deliver high-quality software against aggressive schedules.

Excellent communication skills (written and verbal, formal and informal).

Reactive programming (Rx, ReactiveCocoa, ReactiveSwift etc.) experience is a big plus.

Experience in Navigation based applications is a big plus.
