

Senior Solution Architect

[Apply Now](#)

Company: Ciklum

Location: Pakistan

Category: computer-and-mathematical

Description

Ciklum is looking for a **Senior Solution Architect** to join our team full-time in Pakistan.

We are a custom product engineering company that supports both multinational organizations and scaling startups to solve their most complex business challenges. With a global team of over 4,000 highly skilled developers, consultants, analysts and product owners, we engineer technology that redefines industries and shapes the way people live.

About the role:

As a Senior Solution Architect, become a part of a cross-functional development team engineering experiences of tomorrow.

The company that aims at building an ecosystem of language learning offerings that helps people connect across cultures.

Responsibilities

Empower and Lead: You will laterally lead our team of Principal Engineers, serving as a mentor and guide. Your leadership will be pivotal in elevating their expertise and encouraging them to pioneer advancements in our technology

Drive Technological Excellence: You will be responsible for the continuous development of our Tech Radar, ensuring it reflects the latest and most relevant technologies and practices that align with the client's vision

Set the Foundation: Establish and maintain guardrails and guidance for engineering practices at client, enabling our engineering teams to build software that is innovative, scalable, and

maintains a high standard of quality

Foster Collaboration: You will nurture an Architecture Council that serves as a think-tank for strategic technology decisions, ensuring cross-functional alignment and fostering a culture of collective ownership and knowledge sharing

Blueprint Our Future: Create and articulate a visionary architecture blueprint that maps out the future of the client's platform, ensuring it is robust, scalable, and adaptable to the ever-changing landscape of online learning

Requirements

Fluent English

Commercial experience in software development (more than 7 years)

Commercial experience in solution architecture design (more than 3 years)

Proven Background: Several years of experience working in highly mature tech companies as a Distinguished Engineer or Architect, with a demonstrated track record of technical leadership and innovation

Experience: Proven experience in leading high-caliber engineering teams, with a deep understanding of software architecture and system design in a cloud environment, preferably with AWS

Technical Proficiency: Hands-on experience with Ruby, Typescript, and AWS, and the ability to guide and grow a team working within this stack

Strategic Thinking: The ability to think strategically and create a long-term vision for client's technology architecture, paired with the operational skills to implement that vision

Collaboration Skills: Exceptional collaboration and communication skills, with the capacity to build consensus across various stakeholder groups

Inclusive Leadership: A commitment to fostering an inclusive environment where diverse ideas are celebrated and every team member feels valued and empowered to contribute

Desirable

Certifications on: Architecture framework (SEI, TOGAF, Cloud computing platforms Delivery

processes (SAFe, Agile, etc)

Experience with: Release Management tools & Configuration Management tools
Infrastructure as a code tools

What's in it for you

Care: your mental and physical health is our priority. We offer competitive benefits package that includes but is not limited to comprehensive medical coverage, life-insurance, gym membership, fuel, internet and mobile allowances and provident fund

Tailored education path: boost your skills and knowledge with our regular internal events (meetups, conferences, workshops), Udemy license, language courses and company-paid certifications

Growth environment: share your experience and level up your expertise with a community of skilled professionals, locally and globally

Flexibility: Own your schedule – you are the one to decide when to start your working day. Just don't miss your regular team stand-up

Opportunities: we value our specialists and always find the best options for them. Our Internal Mobility Program helps change a project if needed to help you grow, excel professionally and fulfill your potential

Global impact: work on large-scale projects that redefine industries with international and fast-growing clients

Welcoming environment: feel empowered with a friendly team, open-door policy, informal atmosphere within the company and regular team-building events
