Company: INTECH

Location: Pakistan

Category: computer-and-mathematical

About The Position

INTECH Process Automation is looking for an energized and capable professional for the role of a Software Engineer.

About Us:

INTECH Process Automation has been helping businesses transform for the future through next-generation Automation and Digital technologies for the past 30 years and counting. We are a globally renowned engineering company specializing in automation, electrical, energy transition, and digitalization solutions. Our application-specific solutions diversified and technically backed portfolio and expertise in equipment from major OEMs and system vendors are what differentiate us.

His/her general responsibilities shall include but not limited to the following:

Requirements

Technology Requirements:

Full stack development experience in Nodejs frameworks (NextJS, Type ORM) and ReactJS with Redux.

Can build efficient, reliable and scalable server-side applications.

Unit testing with at least 90% code coverage.

Exceptional Object-Oriented Design skills and design patterns.

Database design and correct data type selections preferably with PostgreSQL.

Optimizations and Performance Improvement techniques.

Self-motivated individuals who take pride in their work.

Desired Skills:

Experience with Dockers and Kubernetes.

Can set up production environments on Cloud with CI/CD.

Cross platform mobile applications with React Native.

BI, Analytics, trends and charts.

Required Experience:

2 to 5 years of experience in similar role.
