Management Level Senior Associate

Job Description & Summary The Innovation Team is at the core of innovation and emerging technology development, discovery, deployment and support activity. Our team is leading the effort to digitally enable our business. Our mission is to develop disruptive & innovative technologies and products that drive the evolution of how we deliver our services now and in the future. The key technology domains we are currently focused on include business process automation, data curation, industrialized analytics, machine learning & AI and scalable delivery platform.

A career in our Tax Reporting and Strategy practice, within Innovation services, will provide you with the opportunity to help our clients' tax departments redesign, redefine, and redeploy tax to be a strategic asset across the enterprise. You'll focus on assisting clients incorporate increased automation in the tax reporting process, increase analytic capabilities through data integration, and create solid internal controls that will enable the

Tax function to deliver better quality output and contribute more strategically to organisational decision making.

Our team helps our clients expand the tax role to include research, analytics, and technologies to improve how their organisation collaborates and performs. You'll focus on enhancing the tax reporting process by incorporating increased automation, integrating quality data, developing analytic capabilities, and utilising technology to deliver better quality output in less time.

To really stand out and make us fit for the future in a constantly changing world, each and every one of us at PwC needs to be a purpose-led and values-driven leader at every level. To help us achieve this we have the PwC Professional; our global leadership development framework. It gives us a single set of expectations across our lines, geographies and career paths, and provides transparency on the skills we need as individuals to be successful and progress in our careers, now and in the future.

As a Senior Associate, you'll work as part of a team of problem solvers, helping to solve complex business issues from strategy to execution. PwC Professional skills and responsibilities for this management level include but are not limited to:

Technical

- 5-7 years of experience in ERP (SAP/Oracle) and Tax Engine (Onesource, Vertex, Avalara, Sovos)
- Strong ERP skills (SAP/Oracle) - Configuration related to Tax Business Process (order-to-cash and procure-to-pay)
- Tax Engine Experience (Vertex, Avalara, OneSource, Sovos) - Configurations related to Tax Determination and Reporting
- Active Involvement in the Functional Design - Deep problem solving skills to assist with ideal future state solution for our clients.
- Perform Testing in ERP system and Tax Engines - Ability to identify root cause related to calculation issues in Oracle or SAP
- Ability to create these documentations: Business Requirements Documents, Functional Designs, Configurations, Test Scenarios and Training Guides

General

- Share and collaborate effectively with others.
- Communicate confidently in a clear, concise and articulate manner - verbally and in the materials produced.
- Demonstrate critical thinking and the ability to bring order to unstructured problems.
- Use feedback and reflection to develop self awareness, personal strengths and address development areas.
- Review work of others for quality, accuracy and relevance
- Uphold the firm's code of ethics and business conduct.
