Sr. Technical Lead / Section Lead - .NET Core, ASP.Net Core (C#), Java Or Node.Js

Nova Pakistan, PakistanWe have openings at our Islamabad office for Senior Technical Lead (Section Lead) to join our fast growing and fast-paced international organization.

About the Role:

Each Section builds and maintains software for up to four active projects. It is split into one Team per project. The Section is also responsible for multiple inactive projects, for which they must handle emergency requests and make sure languages and frameworks are kept up-to-date. As a Sr. Technical Lead (Section Lead), you will:

Act as an escalation point for your Team Leads, to provide support on team leadership and technical guidance.

Maintain a high-level technical understanding of each of the projects in your Section, to include the basic architecture and technologies used.

Maintain a high-level delivery understanding of each of the projects in your Section, knowing about upcoming major technical and project milestones.

Complete performance reviews for your Team Leads or mentees each quarter, and provide salary recommendations to your Engineering Manager for all of the engineers in your Section.

Be a member of the Project Resourcing Group, contributing to proposals for your Section of new and existing projects.

Be responsible for the adherence of each project to the standards set within the department by the CTO.

Basic Qualifications:

Bachelor's degree in Computer Science or equivalent work experience

5+ years of overall software development experience

2+ years of experience directly leading a development team of 3+ people

Development experience using at least one of our core back-end technologies: .NET Core, ASP.Net Core (C#), Java or Node.js.

Development experience using at least one of our core front-end technologies: ReactJS or React Native.

Expert knowledge in analyzing, designing, and developing solutions.

Hands on experience with CI/CD tools and implementations.

Essential team management skills:

Clear, effective communication

Emotional intelligence / empathy

Ability to delegate / openness

Problem solving / decision making

Measuring performance / mentoring

Adaptability / flexibility

Preferred Qualifications:

Strong experience with relational and non-relational databases (MySQL, SqlServer, MongoDB, etc.)

Experience with Stripe's payment gateway would be an advantage.

Salary & Perks :

Salary: Market competitive salary as per the candidate's skills and expertise.

As well as we also offer

Family healthcare including parents

Dynamic learning environment

The opportunity to gain shares in UK business

Paid wedding leaves

Paid Maternity / Paternity leave

Flexible, relaxed, flat structure working environment

Job Type: COVID-19 Remote (Islamabad & Rawalpindi)

Salary: Rs 200,000.00 - Rs 300,000.00 per month

Job SpecificationDevelopment experience using at least one of our core back-end

technologies: .NET Core, ASP.Net Core (C#), Java or Node.js.

Hands on experience with CI/CD tools and implementations#J-18808-Ljbfrr
