

Trainee CAD Engineer

[Apply Now](#)

Company: INTECH

Location: Pakistan

Category: architecture-and-engineering

About The Position

The Trainee CAD Engineer position will provide you opportunities to gain valuable hands-on exposure to a globally renowned System Integrator and Industrial Automation Company. You'll expand your knowledge based on personal experiences, coaching, and resources within our best-in-class learning platforms. You'll also work alongside great managers who will invest in your development and give you feedback to help you grow and improve. It is tailored for experiential learning and will bring you the advantage of first-hand experience through a combination of dedicated mentoring and practical training.

Requirements

Intermediate with good grades

Strong concepts and practice regarding CAD software and foundations

DAE in Mechanical or Electrical domain with AutoCAD knowledge at an intermediate level

Good English communication skills (written and verbal)

Any CAD relevant certifications and courses would be an additional advantage

Fresh to 1 year of experience would be preferred
