

## Unity Developer (Lahore)

[Apply Now](#)

Company: Rutabah Khan

Location: Lahore

Category: other-general

We at Tribech Solutions Pvt. Ltd. are seeking a developer responsible for building games for various target platforms based on the Unity framework.

Your primary responsibilities will be to implement game functionality translating design ideas, concepts, and requirements into a functional and engaging game.

A commitment to collaborative problem solving, sophisticated design, and a quality product are essential. Responsibilities

Implement game functionality as per communicated design

Translate design specification into functional game

Communicate with other team members to establish effective pipeline and integrate media assets

Design, build, and maintain efficient, reusable, and reliable code

Ensure the best possible performance, quality, and responsiveness of applications

Identify bottlenecks and bugs, and devise solutions to address and mitigate these problems

Help maintain code quality, organization and automation

Skills

Excellent knowledge of Unity, including experience with scripting, textures, animation, GUI styles, and user session management

Experience in developing Hyper casual games will be a plus

Familiarity with level design and planning

Experience with game physics and particle systems

Experience optimizing memory and space usage for support of older hardware

Prior experience with a well-known mobile title or AAA titles are a significant asset

Ability to constantly learn and stay in touch with evolving game standards and development technologies

Strong understanding of object-oriented programming

Familiarity with current design and architectural patterns

Knack for writing clean, readable, and easily maintainable code

Experience implementing automated testing platforms and unit tests

Job Type: Full-time

Experience: Development: 2 years (Required)
