Web Developer Plus SEO Specialist

Doo Branding and Marketing , PakistanWe are looking for a Front-End Web Developer who is motivated to combine the art of design with the art of programming. Responsibilities will include translation of the UI/UX design wireframes to actual code that will produce visual elements of the application. You will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

Responsibilities

Develop new user-facing features

Build reusable code and libraries for future use

Ensure the technical feasibility of UI/UX designs

Optimize application for maximum speed and scalability

Assure that all user input is validated before submitting to back-end

Collaborate with other team members and stakeholders
