Category: other-general

We are seeking a skilled WordPress Software Engineer to join Easecloud Technologies. In this role, you will spearhead both backend and frontend development efforts to ensure our WordPress sites are powerful and user-friendly. Your expertise will be crucial in enhancing user experience, achieving business objectives, and collaborating effectively across teams.Key Responsibilities Lead the design and development of WordPress sites, themes, and plugins. Implement custom WordPress coding and integrate with other services and APIs to extend functionality. Optimize website performance for speed and efficiency. Ensure high-performance and manage all technical aspects of the CMS. Regularly update and maintain WordPress installations, plugins, and themes. Implement security measures to protect against common threats. Develop and implement visually appealing front-end website architecture, including translating designer mock-ups and wireframes into front-end code. Develop and maintain the website backend, including database and server integration. Create WordPress plugins and themes with clean, logical, reusable, and efficient code. Conduct website performance tests, troubleshoot content issues, and monitor website performance after launch. Work closely with project managers, designers, and other developers to ensure technical feasibility and timely execution of projects. Provide technical support to team members and clients. Train non-technical staff on WordPress updates and new installations. Qualification, Skills and abilities Bachelor's degree in computer science, Information Technology, or related field. Proven experience as a WordPress developer (portfolio of completed projects). Strong understanding of PHP back-end development and MySQL. Experience building user interfaces for websites and/or web

applications. Experience designing and developing responsive design websites. Comfortable working with debugging tools like Firebug, Chrome inspector, etc. Knowledge of how to interact with RESTful APIs and formats (JSON, XML). Proficient understanding of code versioning tools (such as Git). Strong understanding of website architecture and aesthetics. Ability to project manage and work independently in a fast-paced environment. Excellent communication skills and attention to detail. Attractive compensation package Join an innovative company at the forefront of change. Access to cutting-edge technology and equipment Flexible work options, including hybrid and remote opportunities with a global sale focus. Generous paid maternity and paternity leave Personal development budget with the freedom to pursue any desired courses. Comprehensive benefits package, featuring 27 paid time off (PTO) days, as well as sick and bereavement days.
